

Mobile Application
MetaTrader4

Go to Apps Store and search for **MetaTrader4**.

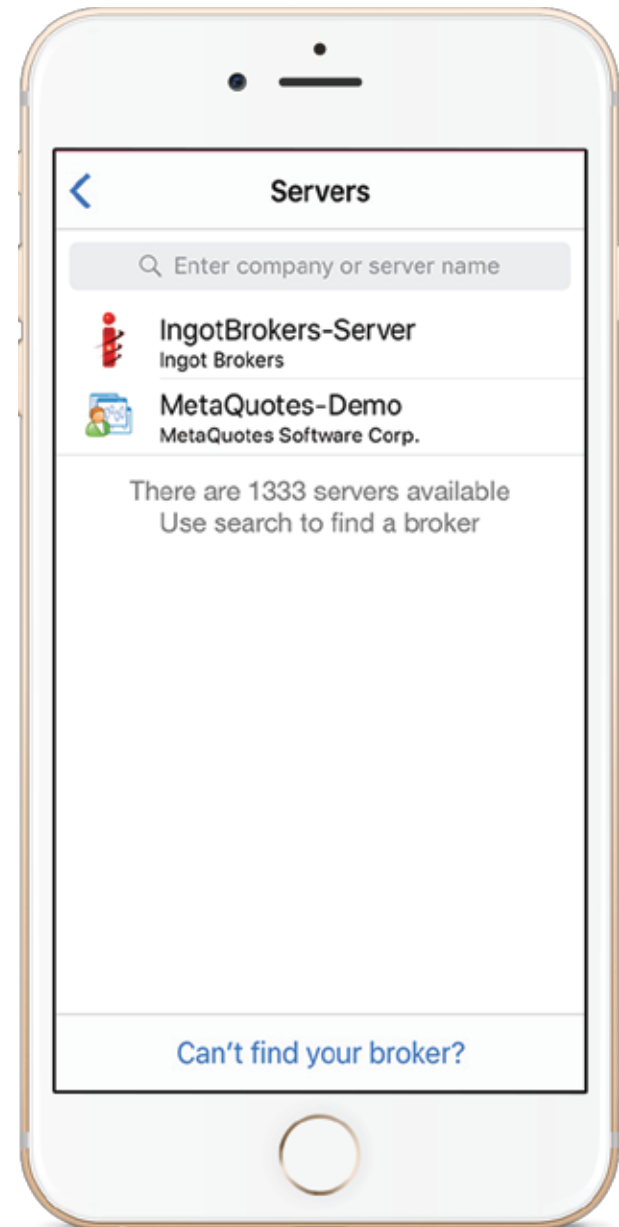

Go to Settings and click on Trade Accounts.

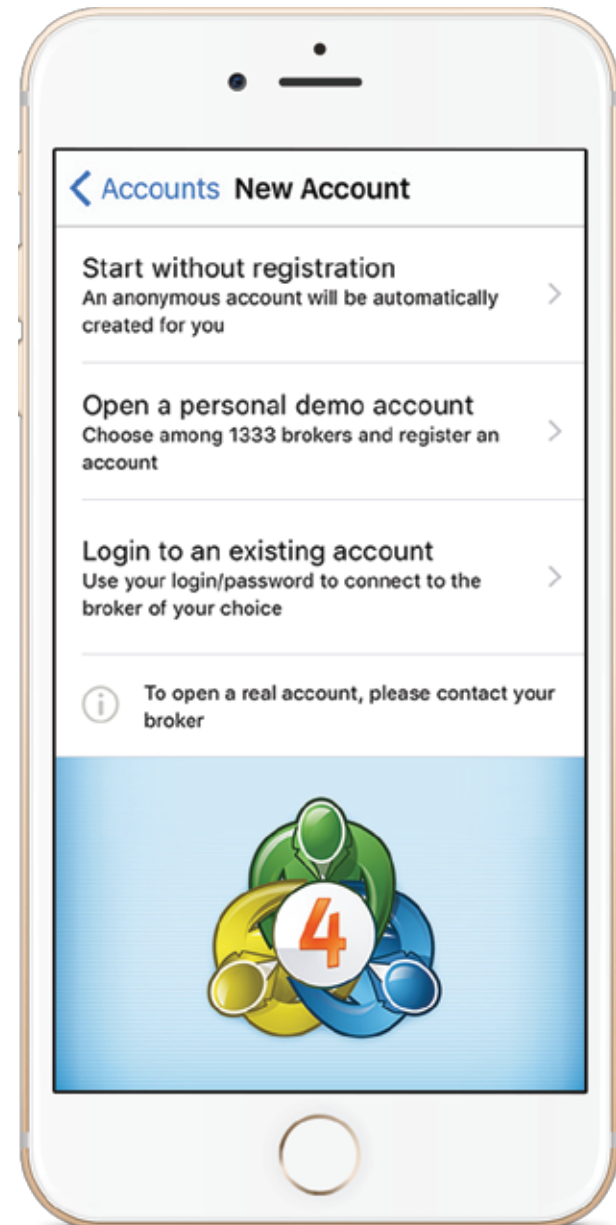

Click on + to add an account.

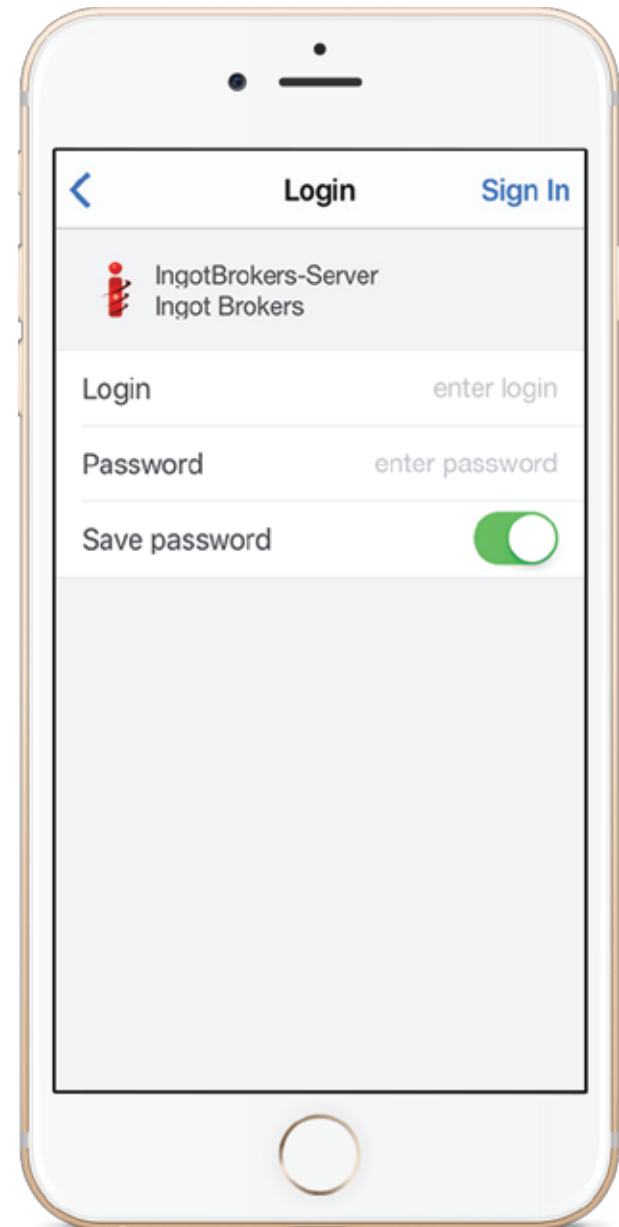

Type (**INGOT BROKERS**) in the search to find the IngotBrokers Server.

Click on Login to an existing account.

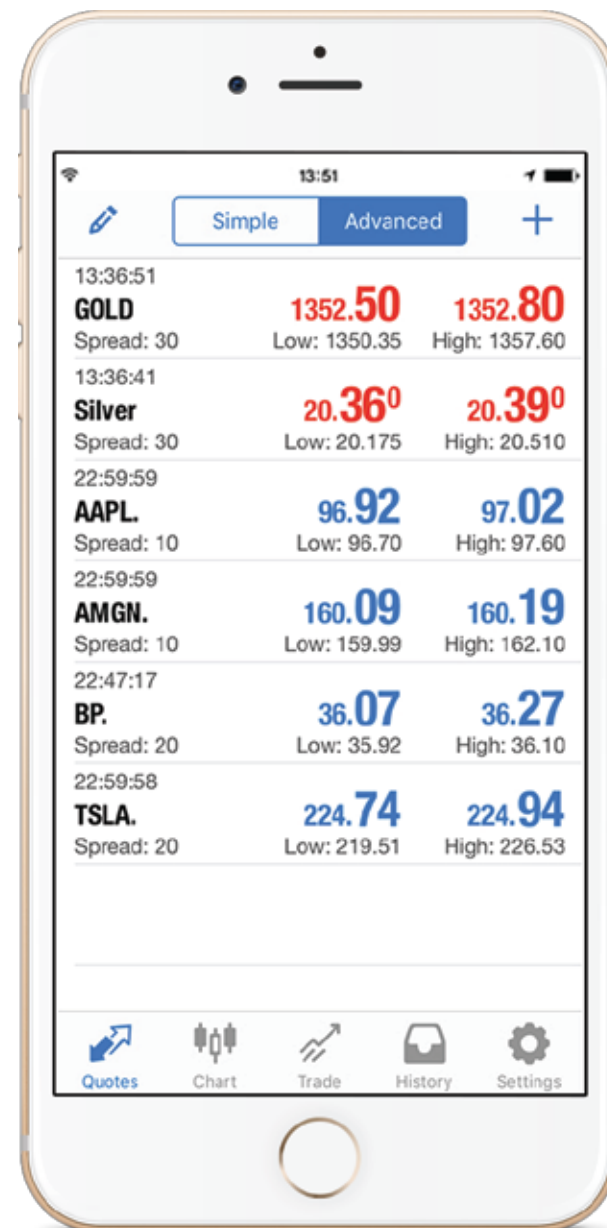

Type in your given login & password and click on Sign In.

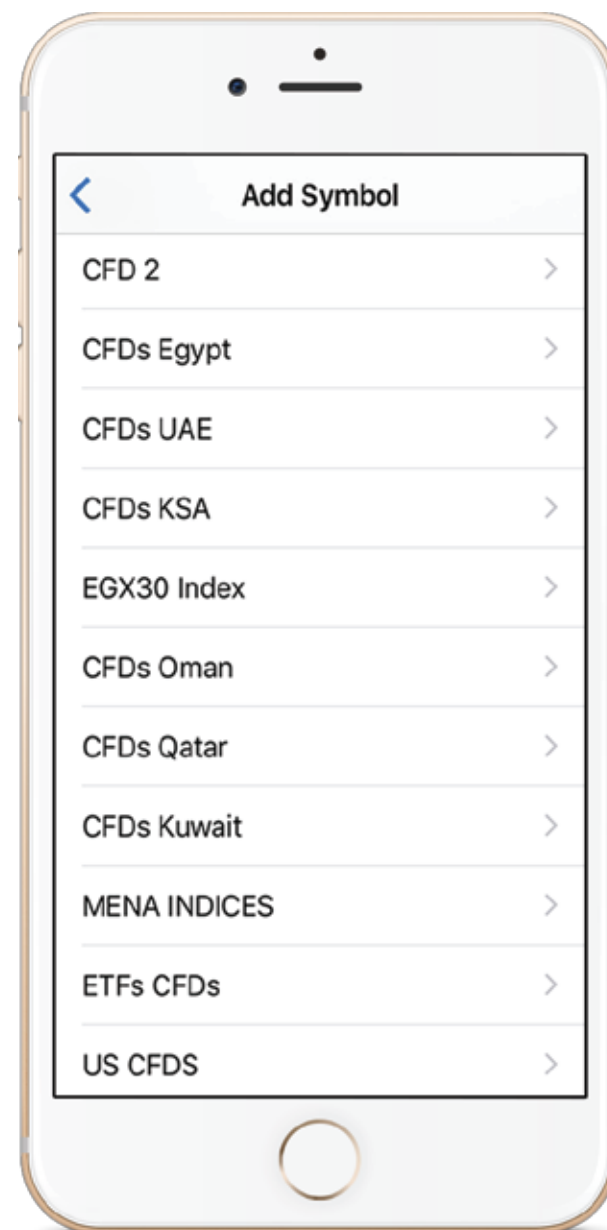

Click on Quotes in the bottom of the page to view all the tradable instruments symbols and in case we want to add a symbol that is not shown click on + next to Advanced.

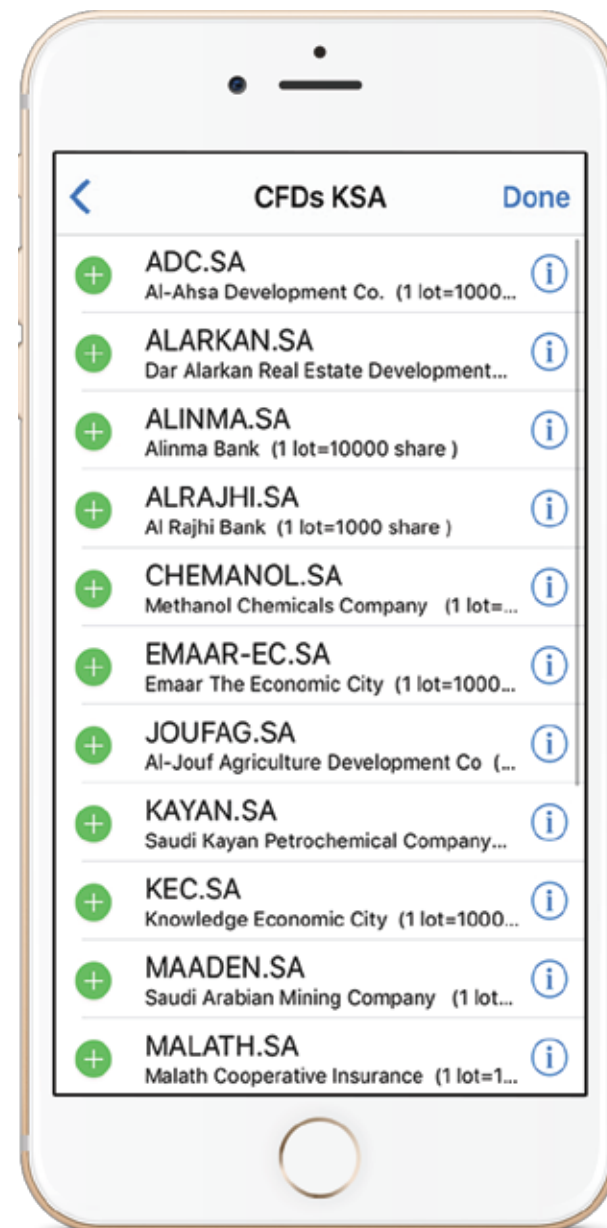

Note: click on Advanced to view HIGH/LOW prices

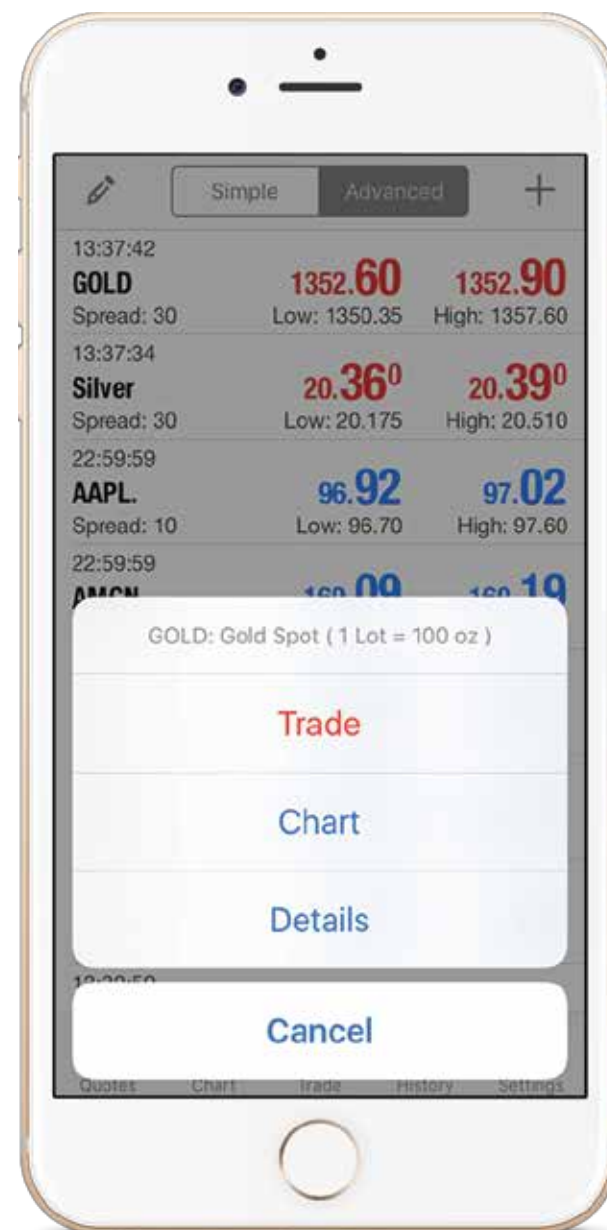

Once clicked on + to add a symbol for example click on CFDs KSA and view all KSA Stocks.

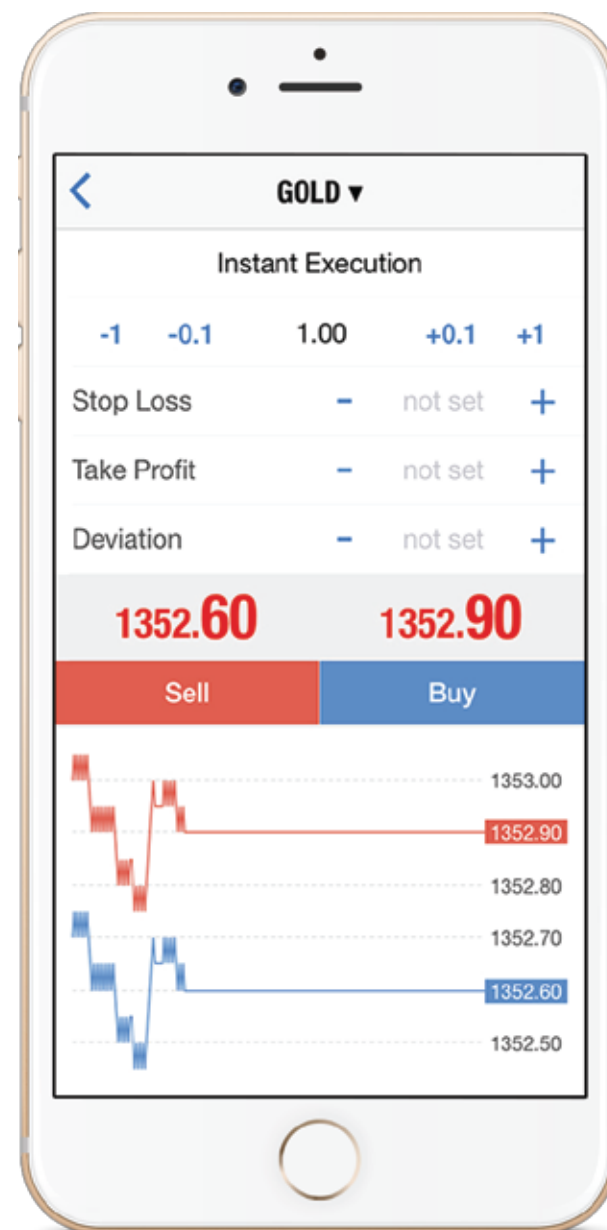

Once clicked on + to add a symbol for example click on CFDs KSA and view all KSA Stocks.

Click hold for 3-5 seconds on the desired instrument you wish to trade on and a pop up will appear where you will have the options shown either to execute a Trade or to View the Chart.

If you have chosen to trade then this window will appear where you can choose your Lot size under Instant Execution Sign your Stop Loss / Take Profit Sell or Buy to execute your order.

In case you wish to take a Pending Order click & hold on “Instant Execution” and click on your desired Pending Order

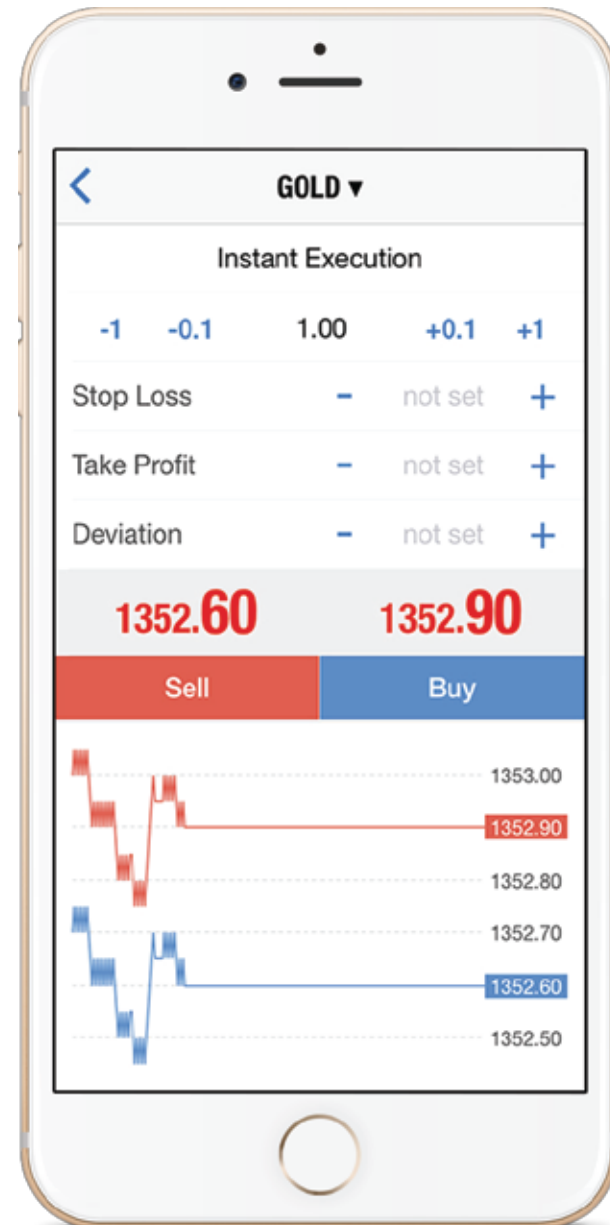

Note:

A. Buy Limit Order: An order to buy a financial instrument on a price that is below the current market price.

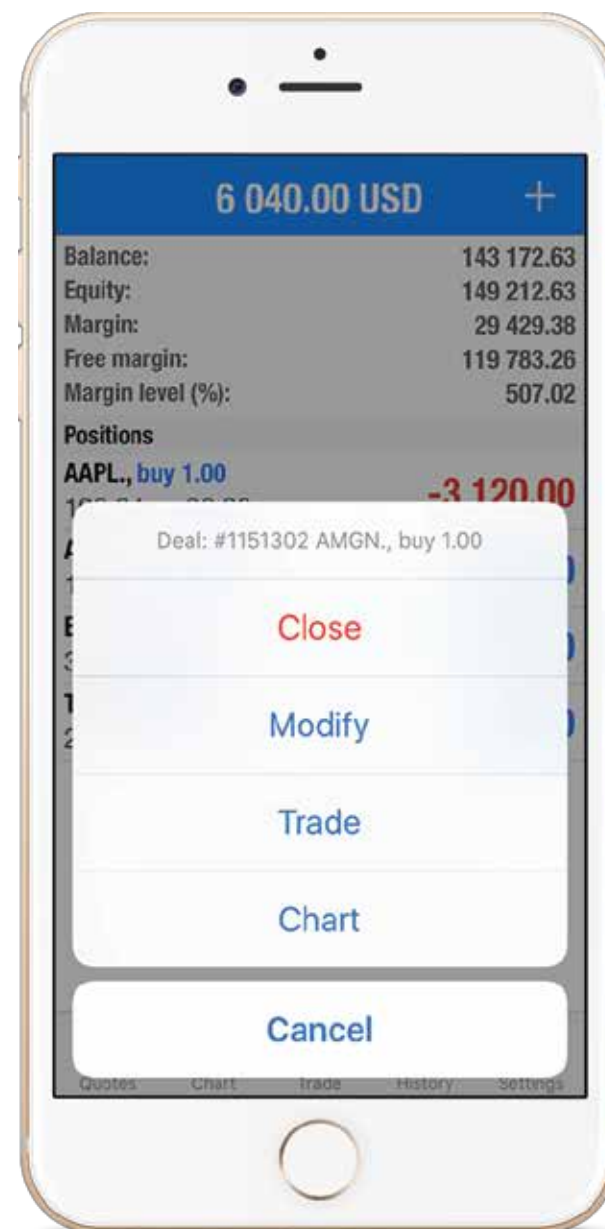

B. Buy Stop Order: An order to buy a financial instrument on a price that is above the current market price.

C. Sell Limit Order: An order to sell a financial instrument on a price that is above the current market price.

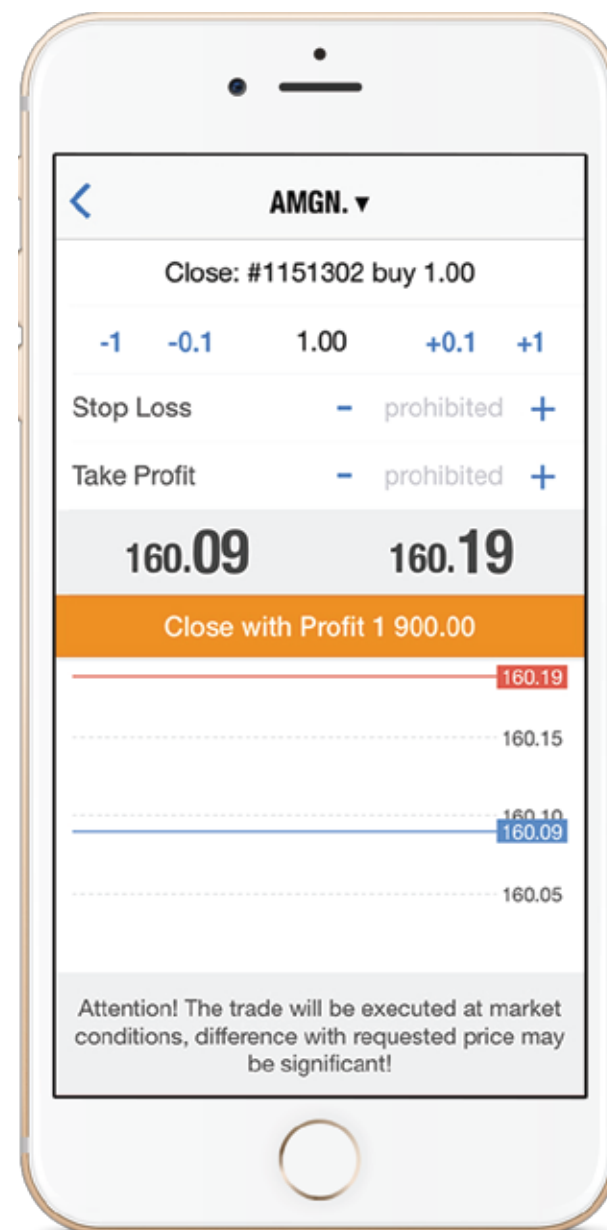

D. Sell Stop Order: An order to sell a financial instrument on a price that is below the current market price

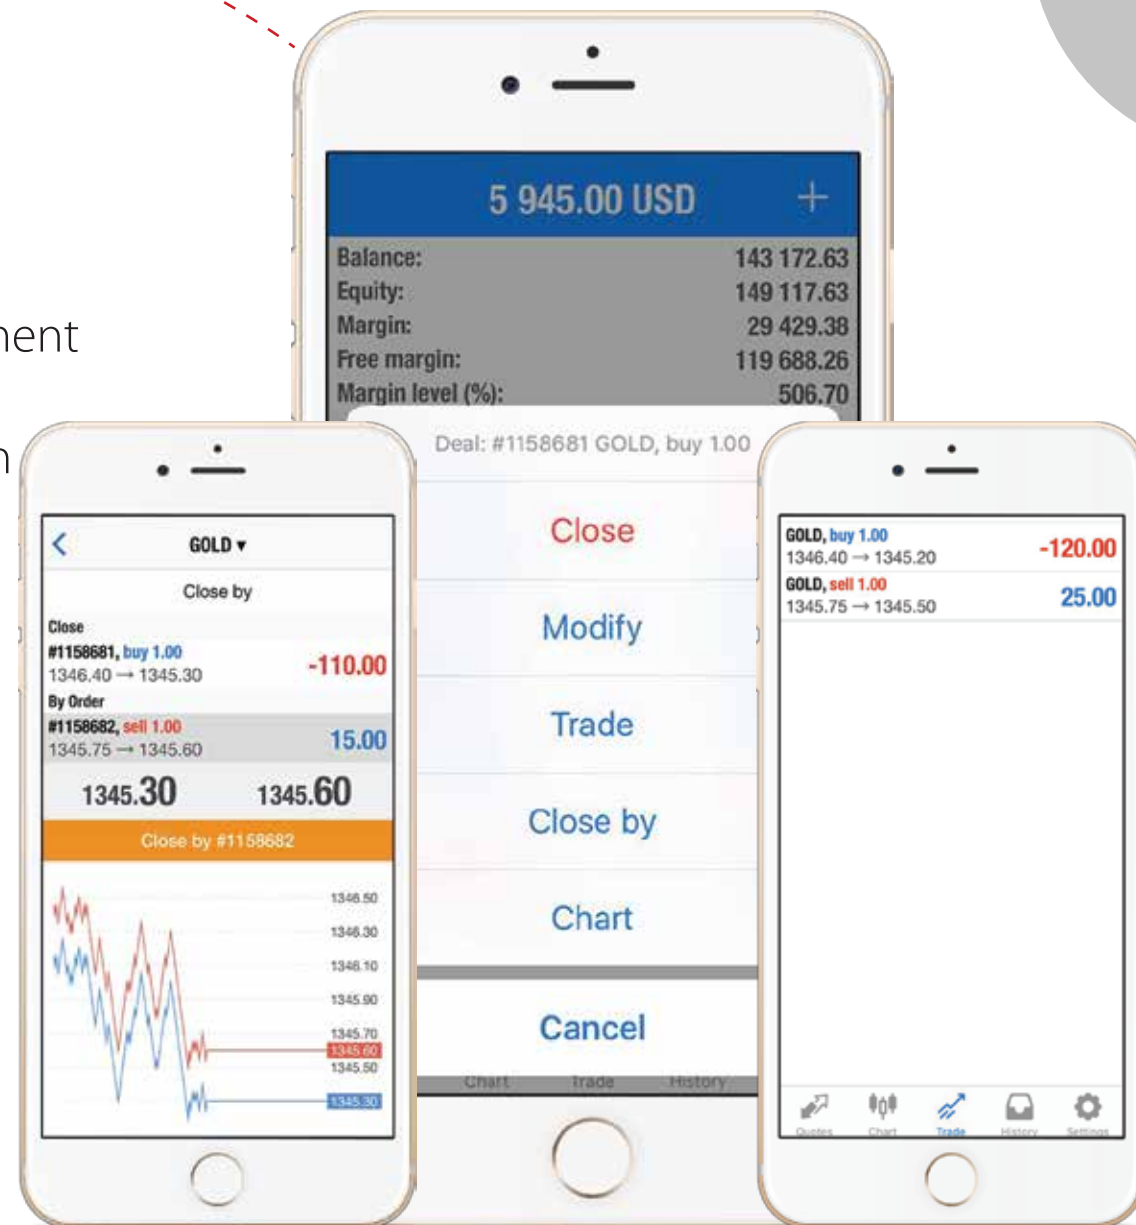

Once you wish to Close or Modify your order or view the Chart on your current position click & hold on your position till the pop up appears then click on Close to close your position in the market or Modify to assign or modify your Stop Loss / Take Profit.

Click on Close with Profit / Close with Loss in yellow to finalize closing of your opened position.

If we have Buy & Sell on the same instrument for the purpose of hedging and you wish to close both positions as one transaction, click and hold on any of the positions "Buy OR Sell" and then choose "Close By". Choose the position you wish to close your position with and then click on the Yellow "Close By #" number of order".

Thank **you**
