 Adding more systematic risk and non-systematic risk on your company.

Question 5

Which of the following statements is NOT true about derivatives?

- The price of a derivative is set and controlled by ASIC.
 The price of a derivative is derived from an underlying reference instrument.

Compensation Acknowledgement

NOTICE: The purpose of this document is for you, the clients, to advise INGOT Brokers (Australia) Pty Ltd as to the compensation you have agreed to pay your designated Introducing Broker, if any. Please be advised that INGOT Brokers (Australia) Pty Ltd is not responsible for calculating incentive fees or management fees and will assume the calculations provided to it by the Introducing Broker to be correct. Please also note that if your IB has requested INGOT Brokers (Australia) Pty Ltd to mark up the spread (widen the spread on the prices) being streamed to you, that INGOT Brokers (Australia) Pty Ltd does not participate in the additional pip(s) being added to the pricing and that the mark-up will not be reflected on your trading statement as a separate line item.

We, the undersigned clients, hereby agree to, authorize and acknowledge that the said fee(s) will be charged to our account and paid to the Introducing Broker.
